

Silicone water repellent

RT-3916

Features and advantages:

1. It is a functional silicone resin modified polysiloxane solvent-free, water-diluted emulsion.
2. The paint application shows strong hydrophobic performance, and the lotus leaf effect on the surface is very excellent, which is to enhance water Excellent auxiliaries for sexual coatings. Upgrade the hydrophobic properties of waterborne coatings for various paint manufacturers in the country, bringing great results

Large cost advantage

Physicochemical property:

appearance	Milky liquid
Active substance content	56%
Density (25°C)	0.97-1.00g/cm ³
Centrifugal stability	No stratification for 30 minutes at 3000rpm
Viscosity (25°C) (mPa.s)	200-250

Product application:

- * Waterborne exterior and interior wall coatings
- * Acrylic paint
- * Real stone paint and other similar texture paint
- * Water-based caulk
- * Silicone latex paint and silicone textured paint
- * Leather textile treatment coatings
- * High filler latex paint
- * Two-component cement polymer waterproof mortar
