

## EVA paste

### EVA

#### Features and advantages:

- 1, excellent silver powder arrangement orientation, fine fineness, non-extinction, easy to flow, easy to disperse, good compatibility with solvents and resins.
- 2, good heat resistance, anti-sink, anti-hardening does not increase viscosity, economic, suitable for almost all paint solvents.
- 3, when used in metal coatings, promote silver powder orientation and anti-flow hanging, used in two-component automotive metal paint and industrial paint.

#### Product specification:

appearance	White flowing slurry
solvent	Xylene/butyl ester/n-butanol
Effective portion	6%

**Application:** automotive coatings, industrial coatings, wood coatings

**Recommended dosage:** 5-15% of total formula;

**Usage:** It can be added at any stage of the production process and dispersed evenly after addition.

**Packaging:** 50KG non-recyclable blue plastic drum; Before the product is fully used, the lid should be tightly closed after use.

**Storage:** Keep away from heat source, fire source and light.
